EDUCATION

B.Tech – Computer Science Engineering (AI & Data Engineering)

Koneru Lakshmaiah Education Foundation, Hyderabad

2023 – Present

CGPA: 9.4

High School Diploma

Board of Intermediate Education, Telangana

2021 – 2023

GPA: 8.7

PROJECTS

Contact Management System (Java + MongoDB)

- Developed a backend web application using Java Servlets and MongoDB for efficient contact management
- Implemented authentication and CRUD operations to handle secure data storage and retrieval
- Designed database schema and optimized queries for faster data access

Expense Tracker Backend System (Java / Spring Boot)

- Built a backend system to track user expenses and categorize spending patterns
- Developed REST APIs for adding, updating, and retrieving expense data
- Integrated data validation and optimized queries for efficient data processing

AI & ML Practice Projects

- Implemented machine learning models for classification and data preprocessing using Python
- Performed data cleaning, feature selection, and model evaluation on structured datasets

TECHNICAL SKILLS

- **Programming:** C, Java, Python
- **Core CS:** Data Structures, Algorithms, Operating Systems, DBMS
- **Concepts:** Object-Oriented Programming, Problem Solving, Debugging
- **Database:** MySQL, MongoDB
- **Web:** HTML, CSS, JavaScript
- **Tools:** Git, GitHub, VS Code

CODING PROFILES

- Solved 150+ problems on LeetCode and codechef focusing on Data Structures and Algorithms

CERTIFICATIONS

- RPA Advanced Developer – Automation Anywhere
- GitHub Foundations

ACHIEVEMENTS

- Maintained strong academic performance with a CGPA of 9.4
- Actively participated in university-level hackathons and contributed to software project development
